Business Activities

Litegrid Holdings Limited (Litegrid) is an investor and developer of ICT infrastructure in the Greater China region. We provide a flexible platform to enable infrastructure projects ranging from underground facilities to rooftop structures. Our businesses includes: (i) project management and telecom/civil engineering covering building access, civil/road excavation, in-building and external cabling and maintenance, and provision of value-added ICT services for building managers/property owners; (ii) fixed network infrastructure investment in Hong Kong; and (iii) a licensed telecom service provider. We have the ability to invest and can offer flexible cooperation structures.
