

I am pleased to offer my congratulations to the Communications Association of Hong Kong (CAHK) for the publication of the “2019 Official Guide to ICT Industry in Hong Kong”.

With the concerted efforts of the industry and the Government, Hong Kong has been making great strides in the innovation and technology scene in recent years. For Hong Kong to thrive in the global technological race, the Government will spare no effort to grow the innovation and technology sector, including collaborating with our peer cities in the development of the Guangdong-Hong Kong-Macao Bay Area, taking forward in full gear the Hong Kong-Shenzhen Innovation and Technology Park in Lok Ma Chau Loop, pooling together technology talents from around the world, accelerating our research and development capacities, and embracing innovation and technology to build a world-famed Smart Hong Kong characterised by a strong economy and high quality of living.

CAHK and its members have played a major role in strengthening Hong Kong’s ICT infrastructure and boosting the development of innovation and technology in Hong Kong. I look forward to our continued collaboration for the betterment of Hong Kong in the many years to come.

I wish CAHK every success in all future endeavours.
