Business Activities

Equinix is the world's digital infrastructure company. We interconnect industry-leading organizations such as finance, manufacturing, retail, transportation, government, healthcare and education across a digital-first world. Business leaders harness our trusted global platform to bring together and interconnect the foundational infrastructure that powers their success—sustainably and securely.

Founded in Silicon Valley in 1998 as a vendor-neutral multitenant data center provider where leading networks come together to securely connect networks and share data traffic, we chose a name that reflected the company's focus on EQUality, Neutrality and Internet eXchange—Equinix.
