

## A New Permanent Home for the Telex Machine donated by CAHK

This telex machine was a valuable asset of HKT. In the name of CAHK, the machine was donated to Hong Kong Science Museum which is in honour of its contribution to the society and also signified the change of the times.

The Donation Ceremony was held in Hong Kong Science Museum on 22 July 2022. Mr. Kenneth Lau, CAHK Chairman, acts as the donor and Mr. KL Ho witnessed the signing of the deed of donation.

### About Telex Machine

Teletypewriter, referred to telex, was a switched network of teleprinters similar to a telephone network. It was used for sending text-based messages. Telex was used to be the de-facto 2-way communications of text for international communications between banks or shipping companies or merchandising companies. It was introduced long before WWII and kept on growing till the introduction of Fax in the 1980's which started to displace or substitute Telex. In Hong Kong, the use of Telex effectively ended in mid 2010's as seen with the faded out of international Telex traffic by end 2014.
