CAHK NEWS UPDATE

CAHK NEWS

Thank You Note by Chairman of CAHK

Mr. Kenneth Lau

Chairman for the term 2020-2022

Dear Fellow Members,

It is really my honor to be re-elected by the CAHK Board of Committee members to serve as the Chairman of CAHK in the next two years. In addition to those EXCO members who have been serving for the Association for the last two terms, we have few more new members joining the EXCO.

This is a good opportunity for me to continue devoting my best effort to the industry and society. I will surely take on this challenge and contribute to enhancing the collaboration of the ICT industry as well as cultivating more talents who are interested in it.

On behalf of the new EXCOM, I can assure you that we will continue to further the Objectives of the Association with our unstinting effort. Your support to CAHK is of utmost importance for our success and to flourish the industry. Let's join hands to safeguard the industry's interest and explore opportunities to boost the ICT industry.

Yours sincerely,

Kenneth Lau

Chairman

Statement of Personal Data Collection

3 Hong Kong opens up “5G One World”

3 Hong Kong launched its 5G service, complemented with an optical-fibre backhaul network with up to 10Gbps transmission rate, in April this year. Its 5G service comes complete with ultra-fast speed and superlow latency.

Leveraging the close ties and synergies with the 3 Group and collaborative efforts with global partners, 3 Hong Kong enjoys rich experience of cross-boundary network deployment to open up 5G business opportunities. In addition to conventional mobile services, 3 Hong Kong is committed to customising and providing innovative applications for various sectors to help both individual and corporate customers make the most of technological advance in the 5G era.

By combining 5G with advanced technologies such as artificial intelligence (AI), big data, clouding computing and the Internet of Things (IoT) concept, and applying the sum of the parts comprehensively, 3 Hong Kong tailors one-stop solutions to meet market needs and broadens the range of 5G applications in Hong Kong, which help redefine mobile communications and build 5G ecosystem. The ultimate aim is to create a superlative all-round 5G user experience for all, opening up a ‘5G One World’.

Statement of Personal Data Collection

1. Personal data will only be collected for the purpose of processing application received and directly related purposes.
2. In general terms, the Communications Association of Hong Kong collects personal data for communication with its members, such as dissemination of news and announcements of the Communications Association of Hong Kong’s activities.
3. CAHK reserves the right of final determination.

SmarTone 5G

The Widest Coverage in HK

Faster • Stabler • Smoother MAKE US SMART

Fast Gaming • Stable Video Calls • Smooth Streaming

Industry Leading Dynamic Spectrum Sharing (DSS) Technology

Faster

AI Real-time Radio Processing

Partnering with Ericsson, SmarTone leverages AI real-time radio processing technology to instantaneously direct users to the best 5G cells. Network resource is utilised efficiently according to actual usage, bringing you internet speeds as fast as you need.

Stabler

Pioneer Dynamic Spectrum Sharing (DSS) Technology

With the unique Ericsson's dynamic spectrum sharing technology, SmarTone network is able to switch 5G users between 4G and 5G spectrums to ensure seamless connectivity. Users can experience a 5G coverage with superior reception both indoor and outdoor, resulting in greater stability.

Smoother

Enhanced Mobile Experience

Your mobile phone needs not constantly search for 5G network, let alone consuming extra power for the process. Overall network experience is enhanced with better performance. From making calls, online shopping, multiplayer gaming to multi-person video conferencing, everything gets smoother than ever.
