Business Activities

Boldyn Networks is a leading provider of shared communications infrastructure. We specialize in creating cutting-edge connectivity solutions for connected transit, venues, enterprise, next-generation networks, and smart cities. Our team of innovative thinkers spans the US, UK, France, Ireland, Spain, Finland, Italy, and Hong Kong.

As one of the largest neutral host providers globally, we empower organizations to unlock the potential of an interconnected future. Our impressive portfolio includes 300+ marquee venues, 6 transport networks, 350 higher education campuses, and 50+ private network deployments. With deep expertise and global experience, Boldyn Networks excels in designing, implementing, and operating connectivity solutions. Our comprehensive solution set covers 5G private networks, Wi-Fi Neutral Host, high-performance DAS, small cell deployment, and high-capacity fiber. Let us help you turn your strategic connectivity vision into reality.
