Business Activities

China-Hongkong Telecom Limited is a Mobile Virtual Network Operator (MVNO). We focus primarily on "One Card Multiple Number" services and Hong Kong local mobile phone services. In 2010, we obtained the exclusive operating license for RF-SIM applications in Hong Kong and Macau, enabling us to offer more value-added services to our mobile phone customers.

Since 2003, China-Hongkong Telecom Limited has been providing "One Card Multiple Number" services under the "China-HK Telecom" and "Directel" brands in Hong Kong, including Pre-Paid and Post-Paid products. This service allows users to simultaneously retain mobile phone numbers for different designated territories, particularly in China and Hong Kong, and to economically dial and receive phone calls from these areas at a lower cost than traditional roaming services.

RF-SIM combines the functions of an ordinary mobile phone SIM card and a contact-less smartcard with special radio frequency transmission and reception capabilities. With the RF-SIM technology, we provide more value-added services to our customers, for example, "E-Access" - access control at housing estates and car park as well as "E-Coupon" - receiving promotions and advertising coupons via mobile handsets.

Parent Company

Company Name : Directel Holdings Limited

業務概況

中港通電訊有限公司為一家流動虛擬網絡營辦商 (MVNO)，核心業務包括「一卡多號」服務以及香港本地流動電話服務。我們於2010年獲得在香港及澳門RF-SIM的獨家營運許可，於香港及澳門推出RF-SIM，為流動電話用戶提供更多增值服務。

中港通電訊有限公司自2003年起以「中港通」及「直通」品牌在香港提供「一卡多號」服務，產品包括預付費及後付費。此項服務使用戶能夠同時擁有不同指定地域(尤其是中國及香港)的流動電話號碼，並以低於傳統漫游服務的經濟價格撥打及接聽指定地域的電話，節省大量費用。

RF-SIM是集普通流動電話SIM卡及非接觸式智能卡於一身，具備無線射頻傳輸及接收能力。有了RF-SIM技術我們為用戶提供更多增值服務，例如"E-Access" — 住宅及停車場門禁管理以及"E-Coupon" — 透過流動電話收取推廣資料及宣傳優惠券。
