### Business Activities

Established in 2012, China Telecom Global Limited (“CTG”) connects the Asia Pacific region and the world with abundant resources in mainland China. CTG has fast become a world-class integrated information service provider. Supporting international carriers, multinational corporations and overseas Chinese clients, CTG provides customised and cost-effective integrated communication solutions and diversified telecom services, including internet direct access, internet transit, data services, broadband, unified communications, internet data centre, cloud computing, ICT services, fixed and mobile voice and value-added services, multi-domestic MVNO and global IoT connectivity service, professional services, industry solutions, telecom operation consultancy and service outsourcing.

Today, China Telecom has branches and affiliates in 42 countries and markets, as well as 200 overseas PoPs, and more than 68.2T in international connectivity bandwidth and intercontinental capacity. By tapping into its network resources of 42 submarine cables and leveraging direct connection to more than 10 neighbouring countries and regions via terrestrial cables, China Telecom has forged its global service with vast network capacity.

### Parent Company
