Business Activities

Mr. Oiu Tao

China Unicom Global endeavors on international business development and servicing outside Mainland China. Our international presence features 31 overseas subsidiaries allowing us to leverage local talent to provide professional service that truly matches the needs of each region. We also provide global connectivity with a top-tier network infrastructure and reliable high-speed service - more than 130 overseas Points of Presence, with international submarine and terrestrial cable network capacity exceeding 130T, to keep our customers at the forefront of digitalization.

Another key part of infrastructure is our state-of-the-art Global Data Center in Hong Kong, our first and largest overseas integrated telecommunications facility. As an Asia-Pacific's Global Cloud Service Hub, it is an information infrastructure interconnection hub for the Belt and Road Initiative, delivering seamless connectivity to China, Asia and around the world.

Leveraging on our global network resources, professional ICT services and digital technology advantages, we focus on the five major businesses of "Big Connectivity, Big Computing, Big Data, Big Solution and Big Security", and is committed to providing global connectivity, cloud computing, data center, ICT and IoT services, and providing personal customers with premium voice and mobility services. We strive to become your trusted partner for global digital information services and continue to enhance product performance innovation and global customer service experience.
