

Embracing Intelligent Innovation

The Metaverse is the future of the Internet. With our “innovative infrastructure” approach, we ensure metaverse-readiness across the entire business infrastructure, from network, cloud computing, information security or data center, assisting enterprises on getting ready for a coming “big bang” of potential from the Metaverse. Our latest development of intelligent offerings include:

AI-AR
Remote Hand

Blockchain
Business Operations

AI Visual Security

AI SD-WAN

> Global-Local Intelligent DICT Service Partner
