How does 5G accelerate the smart city development in Hong Kong

5G brings revolution to the telecommunication. With 5G applications, people are allowed to experience faster and lower latency internet connection. It also unleashed the possibilities of IoT and founded a solid ground to develop Hong Kong to be a "Smart City".

Co-organised with Communications Association of Hong Kong (CAHK), Cyberport Community Connect, Cyberport is honored to invite major telecom operators, including **China Mobile HK, HKT Ltd, Hutchison Telecom HK and SmarTone** to share their insights on 5G technology and how innovations could be applied to future "Smart City" development. Two community members, **Roborn and Formula Square** will be sharing their experience in 5G application too.

26 February 2021 37th CAHK Annual Event – STAR Award Presentation cum 2021 Official Guide Launch

29 April 2021 Embrace the New 5G Era – Experience-sharing Seminar on the Applications of 5G Technology
