5G – A Cloud Native Journey on an Agile Cloud for Telecoms Live Webinar on 16 December 2021 is closed with success!

On behalf of Mr. Kenneth Lau, Chairman of CAHK, we would like to express our most sincere gratitude for our Sponsor Oracle Communications to give us such a learning and sharing opportunity.

Mr. Dan Bantukul, Technology Strategist, CTO Office of Oracle Communications, the professional docent has walked through the cloud-native approach journey with the audience. The valuable insights and expertise shared were well delivered in the webinar.

Of course, thank you for your participation, we truly hope that you enjoyed the 70 minutes sharing and found it inspiring and useful.

Cloud-native implementation lays a solid foundation for achieving a transformative 5G. To learn more, check out the following materials.

In order to help us review and continuously improve our next knowledge sharing sessions, we would like to hear your feedback about the Webinar this time. CLICK. Your comments are confidential and will be treated anonymously.
