

Thank You

CAHK Symposium 2022 on the theme “Challenges & Opportunities for Fiber Gigabit Economy” successfully concluded on 15 December, 2022.

The symposium aims to bring the best minds from different stakeholders within the fiber broadband ecosystem, such as government officials, network providers, and industry experts to discuss how to enhance gigabit broadband to strengthen Hong Kong’s digital development.

We express our warm gratitude to the two Guests of Honours – Mr. Chaucer Leung, JP, Director-General of Communications, OFCA to share government’s policies to promote the building of network infrastructure; and Hon. Duncan Chiu, Legislative Council Member (Technology and Innovation Functional Constituency) to share the collaboration between government and the industry.

The symposium invited industry professionals to share industry insights, including Mr. Victor Zeng, Sales Director of Ookla APAC, Dr. Xiang Liu, Fellow of IEEE & OSA, Ms. Dang Mei-mei, Chief-engineer of ITSR, CAICT, and Mr. Arthur Chen, Chief Consultant of National Broadband Development of Huawei. We would like to express our sincere gratitude for all the speakers’ contributions in insights, knowledge and cases sharing.

The representatives from major operators including Mr. Johnson Zhang, Executive Director, Network Development, China Mobile Hong Kong Co. Ltd., Mr. Ricky Kwong, Head of Network Planning & Operations, HKT Limited, Mr. Lee Kwan, CTO, HGC Global Communications Ltd. and Mr. Danny Li, CTO, Hong Kong Broadband Network, had a lively panel discussion at the symposium.

The discussion was moderated by Mr. Stephen Ho, Co-Founder & Chief Executive Officer of n-hop Technologies Limited.
